

# Budget Process Overview

The Governor's Budget is the result of a process that begins more than one year before the Budget becomes law. When presented to the Legislature on January 10 of each year, the Governor's Budget incorporates revenue and expenditure estimates based upon the most current information available through early to mid-December. In the event the Governor would like to change the Budget presented to the Legislature, including adjustments resulting from changes in population, caseload, or enrollment estimates, the Department of Finance proposes adjustments to the Legislature during budget hearings through Finance Letters. In May, Finance submits revised revenue and expenditure estimates for both the current and budget years to the Legislature. This update process is referred to as the May Revision. Finance also prepares monthly economic and cash revenue updates during the fiscal year. The list below describes the key documents used in the budget process.
